

Thank YOU for the generous donation of new Macbooks. This allows our Photo/AP 2D students to explore in-depth editing techniques and push assignments further this year!

Here are some samples from the photo students working in Lightroom, and some examples of multiple-point perspective images from Photoshop in our AP 2D course.

We love the MacBooks! These are really changing our workflow & overall experience this year and what is likely to be years to come. It's been a big upgrade and it's very much appreciated what Friends of Lane has done for Film Studies, the Art Department, and classes across Lane Tech!

We are beyond grateful for the incredibly generous donation of 40 new iMacs for the Digital I/II, Independent Study, Photography, and Media Crew students to utilize!

**Please enjoy the

Dear Friends of Lane,

As a Digital Imaging I student I am so grateful for your contribution to our classes. It is going to be so helpful for my projects and give us all more options and oppourtunities to explore high tech programs in the future. You are truly making our education in the digital arts stronger and improving our day to day classes!

We cannot thank you enough for your genorosity,
Chloe B.

A stylized, low-poly cartoon character with a light beige body and a large, octagonal head. The character has simple black line eyes, a small black line for a mouth, and two rectangular pinkish-red cheeks. It is holding a large, light-brown rectangular sign in its right hand and a large yellow pencil with a black eraser and a pink band in its left hand. The background is a solid blue sky with stylized white and pink mountains on the left and right. The ground is a solid green color. The sign has a red heart symbol at the bottom right.

Thank you so
much Friends of
Lane for helping
us get access to
new computers!
It really means a
lot to us, we
really appreciate
it :D
